WITH SUCH AN ENTICING ARRAY of design options and price points, it's no wonder Dura Supreme cabinetry has such appeal. Within our family of products, you'll find a perfect fit for every taste and budget. Crestwood and Bria Cabinetry employ a balance of quality materials and construction, with an impressive array of styling options to deliver exceptional value and design. Designer Cabinetry is "custom cabinetry" in the truest sense with premium joinery, plywood construction and an extraordinary palette of door styles and finishes. Alectra Cabinetry is an ideal blend of high-tech and high-fashion with its full-access construction and expansive styling choices from traditional to chic contemporary.

DESTINED TO BE A CLASSIC, this Alectra kitchen combines the best of traditional styling with clean, modern design to create a look that will be as fresh tomorrow as it is today. Traditional white, painted cabinetry is given an up-to-the-minute look by selecting door styles and crown moldings with straight lines and sleek styling (no fussy details). An architectural hood with polished chrome accents and stainless steel appliances dress up this painted kitchen for upscale, contemporary appeal. The island offers a notable color contrast with its rich, dark, gray-hued finish on cherry cabinetry. The sculpted posts on each corner and the beadboard back give a nod to nostalgic country style in this modern kitchen.

“LOFT” LIVING originated in Paris when artists established studios in abandoned warehouses to accommodate the oversize paintings popular at the time. Modern loft environments idealize the characteristic features of their early counterparts with high ceilings, exposed beams, open spaces, and vintage flooring or brickwork. Soaring windows frame dramatic city skylines and interior spaces pack a powerful visual punch with their clean lines and minimalist approach to detail. Dura Supreme cabinetry coordinates perfectly within this design genre with sleek contemporary door styles and equally sleek interiors.

IS THERE ANY OTHER PLACE YOU'D RATHER BE? It truly is a small world as our appreciation for diverse global design sparks enchanting design directions within the home. For this kitchen, Designer Cabinetry offers great latitude in creating exotic details that imbue the grace and ambiance of a relaxed island lifestyle ... bamboo-style carvings, palm foliage, shuttered doors, woven rattan, and extravagantly, carved furniture legs. Lyptus wood creates the perfect backdrop for these lush details with its rich, mahogany-like color and texture. Our finish artisans distressed the surface with chisel marks and rough-hewn edges to create a weathered, time-worn character. Create your everyday paradise with Designer Cabinetry by Dura Supreme.

SUGARY WHITE PAINT is a delicious color for this beautiful Crestwood kitchen with its cozy breakfast nook tucked into the back of the island. The unique design of this island offers seating areas on both sides, and is an open invitation for guests to make themselves at home. It's so easy to pull up a chair at the counter, or convene around the table and enjoy meals and comfortable conversation. Square bin pulls and the expansive hood with polished chrome detailing give this kitchen sparkle and glamour. White painted cabinetry is so very popular right now, topping everyone's menu for their favorite appetizer, entree and dessert!

THIS RICH, CREAMY LATTE PAINT creates a tranquil canvas for the beautiful architectural details to take center stage. The wood hood delivers a striking performance as the paint showcases each detail in the corbels and arched valance. Dura Supreme's well-rounded paint palette includes several "whites", from a true White, to Antique White to Latte. If plain Latte isn't right for you, embellish it with glaze, or distressing, or our "Heritage Paint" detailing. The classic good looks of a painted finish never go out of style and are always a crowd pleaser.

NOT YOUR GRANDMOTHER'S KITCHEN. With its retro details and old-fashioned charm, grandma's homemade pumpkin bread and fresh-squeezed lemonade are at home in your new Dura Supreme kitchen. White cabinetry with Inset doors is accented with a savory mix of cabinet latches, bin pulls and charming bead-board details. With Dura Supreme, there is no compromise between beautiful styling and quality construction. The best of both worlds is available with our engineered construction, ingenious accessories and innovative hardware. Yesteryear styling with avant-garde quality from Dura Supreme.

A LOFTY CONCEPT IN KITCHEN DESIGN. Alectra Cabinetry is a sublime choice for the urban comforts of loft living that originated in Paris and New York's SoHo district. Now fashionable in metros around the globe, city living has never been so simple or sophisticated. This Alectra kitchen dignifies its downtown digs with clean, contemporary lines and its uptown mix of sleek, natural materials. With soaring ceilings and commanding views of the city skyline, this contemporary dwelling is a perfect complement to Alectra's efficient design and high-tech hardware. Whether uptown, downtown, country or cottage, Alectra Cabinetry by Dura Supreme is a savvy choice for every style.

ENJOY THE VIEW FROM YOUR BREATHTAKING KITCHEN. Despite the scenic view outside the kitchen window, it's your Crestwood kitchen that takes your breath away. A panoramic mantel hood soars over the stainless steel range creating a stunning architectural focal point. Beveled glass doors twinkle in the early morning sunlight. A picturesque island stands amid the stream of family activities as you begin and end each day in the heart of your home – your Crestwood kitchen. Although Crestwood Cabinetry is crafted with quality materials and construction, it was the bounty of delicious design details that cemented your decision. Of course the delicate dent it made on your pocket book was a nice surprise as well.

SLEEK AND MINIMALIST, this Alectra kitchen is designed to showcase its glossy exterior and contemporary styling. But don't let the sleek exterior fool you, as this kitchen is full of space saving storage solutions and hard-working organizational features on the inside. Flip-up doors create remarkably accessible storage in cabinetry that is conveniently positioned over the sink. Stainless steel drawers glide effortlessly with a soft-close, self-closing feature and are compartmentalized to keep contents organized. On the back of the peninsula, drawers not only hide the cooktop from view but provide handy storage of silverware and placemats within easy access of the dining table.

MIX IT UP with an enticing blend of wood species and finishes to create an appetizing visual menu. Large spaces can be daunting but with a little color ingenuity, the effect is delicious. Two wood species with two distinctly different finishes are served up together and presented to perfection. Knotty Alder with a smoky-hued finish is beautifully paired with a full-bodied finish on Lyptus to create a superb combination. With such a large kitchen, the architectural ingredients are essential in creating a spicy and flavorful design. Apothecary drawers, beaded panels, open display areas and turned posts add visual intrigue and zesty flavor.

TROPICAL DETAILS ABOUND in this “West Indies” styled kitchen. Designer Cabinetry is the perfect canvas for creating a relaxed island ambiance that fits your lifestyle. Lyptus wood species resembles mahogany which was used extensively in tropical, humid environments. Iconic, island elements like bamboo posts, louvered doors and rattan panels create a one-of-a-kind look for your one-of-a-kind kitchen. Just because your kitchen needs to perform beautifully for your active and hard-working household, doesn’t mean it can’t look like it doesn’t have a care in the world. Behind that exotic exterior, durable hinges, drawer glides and organizational accessories keep everything humming smoothly.

A KITCHEN YOU'LL NEVER WANT TO LEAVE! There was a time when you couldn't wait to get out of the kitchen, but with your new Bria Cabinetry, you may never want to leave it. Bria Cabinetry is crafted with a uniquely engineered, full-access construction. This practical and intelligent design creates cabinetry that performs as beautifully as it looks. Behind each cabinet door is a full-access interior with more storage capacity than typical framed cabinetry. Beneath every drawer are concealed, undermount slides heralded for their incredibly smooth glide and a soft-close, self-close feature. You'll find yourself lingering in your Bria kitchen long after the dishes have been washed and put away.
